ATHENA
SURGICAL

Retropubic Midurethral Sling System

Innovative premium features. Designed for today's healthcare economics.

Athena Surgical's goal is to bring innovation to midurethral slings that have been the standard of care for over 20 years. We worked alongside leading stress urinary incontinence surgeons to reengineer a new RMUS System to meet the lifestyle needs of patients, the clinical and safety requirements of physicians and the economic realities of today's healthcare environment.

FEATURES

Knit-to-width sling eliminates rough cut, sealed or knotted edges.

- Designed to ease tissue passage, potentially reduce urethral irritation and for lay-flat placement.

- Standard of care blue sling to improve cystoscopy visibility.

- Standard of care large pore size and lightweight polypropylene mesh.

- Sheath designed for ease of removal and tissue passage.

Athena Surgical RMUS Reusable Introducer/Handle

Machined instrument handle locks in needles, providing haptic and tactile feedback to surgeon's hand during retropubic passage.
